Election Strategy Report

The Elections Office posted the requisite posters, sent numerous mass emails, posted banners, conducted flyer drops/handouts, sent social media communications, and actively communicated with on-campus media throughout the election period. The elections division successfully rebranded by introducing a brand new elections division logo, created by Dir. of Student Life Josh Paglione. This new logo appeared on all paper posters and flyers, online on social media sites, election staff uniforms and T-shirts. It is also shown on the cover page of this elections report. On the first day of voting, the elections division offered a free slice of pizza to the first 500 voters, (Campus polls or online) to encourage students to vote. This was received very well, considering the voter turnout was approx. 500+ between 12pm - 2pm during the time scheduled to serve the pizza. The Rock the Vote event was the election finale. The elections division raised the

profile of this event tremendously, via collaborations with the Dir. of Student life. The event was hosted in MYNT Nightclub and featured refreshments, giveaways and many prize raffles sponsored by Society of Arts and Social Sciences (SASS) and Student Oriented Computing Resources (SOCR). The overall elections strategy to rebrand the elections division, create excitement and regenerate UWSA interest from the student body here at the University of Windsor was met while maintaining the integrity of the election.

Synopsis of outstanding election Issues

1. There were a couple of eligible voters that had issues voting. Once the voters made these issues known to the CRO, their information was immediately updated into the OVS (online voting system), giving them access to vote.
2. A full-time undergraduate student that was both enrolled in the college and Univ. in a joint program was unable to vote. This issue was resolved by the CRO.
3. There were concerns regarding the OVS being hacked/breached. The CRO verified with the IT Dept. that no unknown person entered the OVS at anytime during the election season. The Admin Log certified that only the CRO and the IT Dept. logged into the system. They are the only people that have access to the OVS.
4. A few students had notified the CRO of an issue that when they logged onto the website to vote, they were unable to vote for some positions, as the system claimed that votes were already casted for such positions. The CRO immediately contacted the IT Dept. and began an investigation. Upon further investigation the IT Dept. did not come to a specific conclusion regarding this issue. The CRO advised concerned students to immediately change their password, and not to give it out to anyone. The CRO also advised any student that believed their personal information has been compromised, to file a complaint with the appropriate Law Enforcement Authorities.

Candidate Sanctions

- A complaint was made in regards to a candidate's unstamped posters. Complaint was made after the Campaign period.
 - The Elections Office decided to sanction this candidate 25% of their expenditure refund.
- A complaint was made in regards to multiple candidates' posters displayed after Campaign Period.

- The Elections Office ruled to sanction those candidates 25% of their expenditure refund.
- A complaint was made in regards to rumors of candidates soliciting in the Residence halls during the voting period
 - The Elections Office decided to acknowledge this complaint, but did not act upon this complaint due to insufficient evidence.
- A complaint was made in regards to a candidate requesting to solicit votes in the basement of the Education Gym.
 - The Elections Office decided to acknowledge this complaint, but did not act upon this complaint due to insufficient evidence.
- A candidate was noted as soliciting votes in Macdonald Hall. Proof was provided.
 - In addition to other complaints, the Elections Office disqualified this candidate.
- A University employee made a complaint, regarding a confrontation with a candidate during a classroom talk.
 - The Elections Office acknowledged this complaint, and communicated the request to ban all classroom speeches during that specific class.
- A complaint was made by a student at large in regards to candidates soliciting via the UWIN Gmail account.
 - The Elections Office chose to acknowledge this complaint, and notified such candidates to stop misusing the email system. No further incidents were reported.
- A complaint was made in regards to a candidate's alleged theft with a student group's communications.
 - The Elections Office dismissed this complaint due to lack of evidence. This was not deemed an issue related to elections.
- A few complaints were filed about candidate's negatively campaigning and unfair behavior, which compromised the integrity of the election.
 - The Elections Office acknowledged these complaints and dismissed most due to insufficient evidence. Some of such complaints, contributed to the disqualification of candidates.

Electoral Monitoring Committee Appeals

1. An appeal was received from Mr. Akbar regarding The President of the UWSA. Akbar was appealing to the CRO/EMC to be granted permission by the President to the UWSA social media networks. The President stripped Akbar from such resources. The CRO determined that this was not an elections issue and therefore took no action in the matter. The CRO deferred the complaint to the UWSA council, as this is a council issue. EMC **acknowledged** this appeal and determined that it would support the CRO's decision in this matter.
2. An appeal was received from Ms. Orr regarding the decision of the CRO in disqualifying Ms. Orr from campaigning for the "yes" side of the OUSA referendum election, due to her obligations as the UWSA president and councils decision to endorse the "No" side of the OUSA referendum. She believed that By-Law 30 part 1 and 1.2.1a) were violated by the CRO. Ms. Orr insisted the CROs decision to stand "...effective immediately...null and void..." Ms. Orr argued that a class talk does not constitute either an "official function" or "public events". EMC determined that this claim had no substance to it and was therefore **withheld**.
3. An appeal was received from Mr. Gray regarding the CROs decision to disqualify. He states that he was notified that he violated EP.6.13, 6.6.c), 6.6.d), 7.8, 7.1, & 7.1.1. by the CRO, and claims that the CRO "failed to provide adequate evidence of these alleged infractions." He further requested a hearing with the CRO and EMC to have the CRO articulate what he [Mr. Gray] did wrong and provided evidence to support it. Mr. Gray argues that the manner in which the CRO notified him of his disqualification was "not proper procedure and does not reflect the way an election with integrity should be ran." He also states that he "...was not given any warning and assured that he did not conduct himself in any way that compromised the election, nor the integrity his campaign or that of his candidates." EMC **acknowledged** the appeal but felt that the integrity of the general election was intact. It is the position of EMC that the election office acted within their limits to ensure that all matters were handled fairly and justly. In addition, all candidates received equal treatment and were judged by the same criteria. Furthermore, all claims of "inappropriate discretion" that were sent to the EMC were dismissed. Where sufficient proof was provided, action was taken on the individual at fault. Claims without sufficient evidence were dismissed. Therefore this appeal was **dismissed**, and the disqualification was **withheld**.
4. Ms. Ouellette, Mr. Panama and Mr. Souza submitted appeals regarding the votes being skewed as a result of disqualifications and a system failure. These appeals contained other items that were dealt with individually, which was then collected to determine an overall position from EMC on the general appeals of the UWSA election results.

- 4.1. *Votes being skewed.* No evidence was provided to EMC. In addition, the EMC deemed that the disqualifications did not hinder other candidates from receiving votes. Voters have the option to “decline” from voting or choose “none of the above” as options; it cannot be assumed that votes for a disqualified candidate would have automatically been a vote for the remaining candidates. EMC **dismissed** this appeal for insufficient evidence being provided.
- 4.2. *System failure.* There was no evidence provided by the candidate to validate the claim. Due to insufficient evidence and hearsay, EMC **dismissed** this matter.
5. Mr. Shahwan filed an appeal of his disqualification stating that he did not violate EP. 7.7 and 7.1. He states that the “allegations are baseless” and request evidence. He further requests specific justification for the disqualification. Upon review of the evidence brought forth by the CRO to the EMC, the EMC **withheld** the decision of the CRO to disqualify the candidate. The CRO confirmed to the EMC, that evidence brought forth against candidates, will under no circumstance be disclose with the alleged candidate or with anyone other than the EMC. This is a measure to protect the identity of the individuals who file complaints, to maintain the confidence and integrity of the electoral process.
6. Ms. Jacobson filed an appeal of her disqualification, stating that she “has not been given an appropriate justification + rationale to the electoral policies she allegedly infringed.” She noted that she has requested via email, that the CRO provide “a written rationale for each policy.” She states that she “has not received a reply and that to her knowledge she has not infringed on any electoral policy; in addition to waiting for justification for her disqualification without cause.” The EMC **dismissed** this appeal. They ruled that Ms. Jacobson was provided with the elections policies that the CRO utilized his discretion to disqualify her as a result of violation. The EMC further stated that the conduct of the CRO does not violate any elections policies, nor does the rationale of the CRO need to be justified. The CRO confirmed to the EMC, that evidence brought forth against candidates, will under no circumstance be disclose with the alleged candidate or with anyone other than the EMC. This is a measure to protect the identity of the individuals who file complaints, to maintain the confidence and integrity of the electoral process.
7. Mr. El-Cheikh filed an appeal of the elections results. He states that a candidate “hijacked” a student group’s communications, which he believes is his “main base of support.” He also states that the alleged candidate slandered his and other candidate’s campaigns during the election. The EMC **dismissed** this appeal for a lack of evidence. The EMC does not believe that the alleged instances affected the result of the election.

Recommendations and Policy Modification

The Elections Office recommends that Council accept the 2013 General Election Report and results as presented.

The Elections Office recommends that Council direct the appropriate bodies to:

- Create regulations defining the Elections Office's jurisdiction over web-based campaigning and social media.
- To amend by-law 85 2.3 & 2.4 to clearly outline referendum policies.
- To amend elections policies such that campaign materials **without** a receipt/proof of purchase are **not** be eligible for expenditure refunds.
- Create regulations addressing the ramifications of stolen campaign materials.
- Create rules of procedure for the Electoral Monitoring Committee.
- Create rules regarding disclosure of evidence for the Electoral Monitoring Committee.
- Amend or clarify automatic right to appeals to the Electoral Monitoring Committee.
- Provide the Elections Division with a stationary office space with enough space for the CRO, DRO and EMC to adequately carry out the duties of this office.
- The new CRO to be provided sufficient training to be properly equipped to carry out the duties of this office.

The CRO received many complaints from candidates with regard to other candidates and there is not enough time during voting days to be able to monitor the voting system as well as look into candidates' allegations. The CRO believes this would impact the fairness of the campaign process and suggests the ban on active campaigning during voting day's stay in place.

Recognition and Acknowledgement

The Elections division would like to thank the following for their contributions to the 2013 UWSA Winter General Election.

The Elections Division staff- [CRO & DRO (Alicia Daly), EMC members- (Mustapha, Evan & Nishay), Poll clerks & Election Ambassadors/Volunteers], the UWSA full-time staff (Dale Coffin, Nicole Morrell, Yoshani Jayatilaka, Theja Ekanayake & Josh Paglione), both the UWSA and CAW front desk staff- (Dolly Digou), UWSA councilors- (Chris Rudnicki), The office of the Registrars- (Gary

Ryckman), The Leddy Library- (Lucy Formicuccia), St. Denis Centre- (David Weston), Clubs coordinator- (Curtis Makish), UWSA Execs- (President, VPUA, VPA & VPFO), Sponsors- (Society of Arts and Social Sciences & Student Oriented Computing Resources), The Lance, Hogan's Printing- (Cindy and Sherri), MYNT Nightclub, Catering Services- (Ann Devine Fantin).

Recommendation to Destroy Ballots

The CRO recommends that Council move to clear the online voting system of the 2013 Winter General Election.

This 2013 University of Windsor Students' Alliance Winter General Election Report is respectfully submitted this 4th day of April 2013.
